DETAILED ACTION

Current Status

1. This action is responsive to Applicants' amendment of 2 April 2009.
2. Receipt and entry of Applicants' amendment is acknowledged.
3. Claims 1, 3, 5-13, 16-19 and 32-53 are pending in the application.
4. The 103 rejection of claims 1, 3, 5-13, 16-19 and 32-53 is maintained for the reasons stated in the previous Office Action 01/06/2009.

Applicants' argument and amendments filed 2 April 2009 have been fully considered but they are not persuasive because Applicants claimed process is obvious in view of the prior art references cited. Applicants' argument is based on the fact that the prior art references teach a process wherein the variable R^3 in the prior art reference of Cobley et al. is different from Applicants claim. The argument is not convincing because the combination of the two references; Cobley et al. and Abdur-Rashid teach Applicants claimed variables and process for preparing an amine from an imine.

Furthermore, Applicant argue that the Examiner's obviousness objection is improper as Abdur-Rashid is not a citable prior art reference. Applicants direct the Examiner to Section 2132.01 of the Manual of Patent Examining Procedure which states that when the reference is a U.S. patent published within the year prior to the application filing date, a 35 U.S.C. 102(e) rejection should be made. Applicant submits that the present application and Abdur-Rashid were commonly owned at the time the present application **was filed**, and therefore, is not citable prior art under 35 USC

Art Unit: 1621

102(e). Applicant directs the Examiner's attention to Section 715.01(b) of the Manual of Patent Examining Procedure.

Applicants argument is not convincing because the Section 2132.01 of the Manual of Patent Examining Procedure states that a rejection is applied under 35 U.S.C. 102(f)/103 or 35 U.S.C. 102(g)/103, or, in an application filed on or after November 29, 1999, under 35 U.S.C. 102(e)/103 using the reference, a showing, that the invention was commonly owned, or subject to an obligation of assignment to the same person, at the time the later **invention was made** (not when the application was filed as argued by Applicants) would preclude such a rejection or be sufficient to overcome such a rejection.

Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
